2503/06 **Planning**

a. To note the minutes of the Planning Committee meeting held on 19th March 2025.

Item noted.

b. To consider the following applications received after the Planning Committee meeting agenda was issued.

2025/258 – planning permission to erect a single storey double garage building at the side of the existing dwelling at Axholme House, 9 The Nooking, Haxey.

Resolved – no objection with the following comments:

Large plot can accommodate the proposal, it should not impact on privacy or overshadow other properties.

Proposed: Cllr Booth, seconded: Cllr Carlile. 10 for with 1 abstention.

2025/280 – planning permission to erect a garage/store at 28 The Nooking, Haxey.

Resolved – objection with the following comments:

A large plot that can accommodate the proposal, it should not cause any over shadowing or privacy issues. However, the proposal is forward of the building line and will be out of character with immediate street scene.

Proposed: Cllr Carlile, seconded: Cllr Bond. 10 for with 1 abstention.

2025/310 – application to determine if prior approval is required for a proposed change of use of agricultural building to create one single storey dwelling house (use class C3) under class Q at Barn off Carr Lane, East Lound.

Resolved – object with the following comments:

No access to planning ref 2/1993/0259 and therefore the Parish council do not know what type of application it was, other than as a stable/storage.

The Isle of Axholme Historic Environment is a nationally recognised area and should be a consideration. The site is isolated, being some distance from the nearest village of East Lound and other dwellings.

Whilst the planning statement demonstrates a continued use, no financial evidence is available to the Parish Council that an agricultural business operated continually for the qualifying periods, the planning permission and the planning statement provides no evidence other than use was for recreation or as hobby and would not qualify under Class Q.

It should be noted that this is still a used for a unit for rare breeds according to the planning statement, this will mean the loss of shelter for livestock and is not as such a redundant building.

While local plan RD9 appears to be overruled by part Q, it is important the applicant understands. RD 9 iii would restrict any further development.

In determining this application, it would appear at odds with the NPPF which is the primary guidance for planning and the Local plan which conforms to the NPPF. The Parish Council understands the assessment is determined by class Q which appears to ignore the government guidance and fails to adequately recognise Natural England's statement. "Although currently non-statutory (not enshrined in law), the NPPF is a vitally important framework. It can shape how we can build the houses and infrastructure we need in a way that protects our countryside and involves local communities."

At the heart of this application is whether for purpose of Class Q it was a farming unit, it is recognised the barn was agricultural in respect of its original use for the keeping of horses planning application 2/1993/0259. Its use as provided by the planning Statement "Last use as an agricultural Building" demonstrates a use for keeping rare breeds, the planning statement refers to occasional sale for meat and the production of milk with no stated commercial value. It does not demonstrate financially viable farming use but an important hobby for rare breeds.

This Council concludes it fails class Q as recreational or hobby uses are not accepted under class Q as an agricultural use, therefore this Council ask the planning authority to recommend full planning is required and it be considered against NPPF and the local Plan.

Informative

NPPF Para 83 - To promote sustainable development in rural areas, housing should be located where it will enhance or maintain the vitality of rural communities.

NPPF Para 84 - Planning policies and decisions should avoid the development of isolated homes in the countryside unless one or more of the following circumstances apply:

- a. there is an essential need for a rural worker, including those taking majority control of a farm business, to live permanently at or near their place of work in the countryside.
- b. the development would represent the optimal viable use of a heritage asset or would be appropriate enabling development to secure the future of heritage assets.
- c. the development would re-use redundant or disused buildings and enhance its immediate setting.
- d. the development would involve the subdivision of an existing residential building; or
- e. design is of exceptional quality, in that it:
 - i. is truly outstanding, reflecting the highest standards in architecture, and would help to raise standards of design more generally in rural areas; and
 - ii. would significantly enhance its immediate setting and be sensitive to the defining characteristics of the local area.

Proposed: Cllr Carlile, seconded: Cllr Booth. All in favour.

A response has been received from NLC PROW Officer stating that

The farmer I understood to be responsible was spoken to and written to and has declined to do any repairs. It is unlikely that we, NLC, can pursue for repairs to benefit private vehicle use when there is no impingement on public use of the bridleway. The effect of the harvesting at the time was unfortunate in coming just after the full repair being done.
